Your products on the new FORMÉ website

A few questions before launch. Prepared 9 November 2026.

GOOD NEWS

All 27 products from the old website have been saved, with their prices, colours and stock. The photos from your Debut Collection folder (133 photos) are attached to them, and we used them for the homepage banners and category pictures too, so nothing has to be uploaded again. 25 products are ready to show on the new site.

THE MOST IMPORTANT QUESTION

No product has sizes yet.

On the old website every product only had colours, so a customer could pick a colour but not a size. Before launch we need, for each clothing item, the sizes you sell and how many you have of each colour in each size. The table on page 2 shows the easiest way to send this.

Other questions

1. **The Off-Duty Set appears twice** on the old site: once at ~~₦49,000~~ with no colours, and once at ~~₦40,000~~ with 5 colours. We put the photos on the ~~₦40,000~~ one. Which price is right?
2. **The Nobi Set** has photos but no colours or stock, so it is hidden for now. Which colours do you sell, and how many of each?
3. **The colour called "Dark"** is used on the Ace Dress, the Flex Set and the Serene Set. Which colour is it? The Jojo Set also lists "Cream white" twice.
4. **Product names:** some are written in small letters on the old site, for example "off duty set", "the naya set" and "The harvey active". Please send the names exactly as you want customers to see them.

Photo colours to confirm

When a customer picks a colour, the page shows a photo of that colour. The photo names didn't always use the same colour names as the shop, so these are our best guess. Tick the ones that are right, and correct the others.

Product	Photo shows	We linked it to	Right?
The Adventurer Set	Sage	Olive Green

Colours on sale with no photo

Customers can buy these colours, but there is no photo of them. For each one, either send a photo or tell us to remove the colour if it isn't really available.

Product	Colours with no photo
The Ace Dress	Dark, Light White
The Flex Set	Black, Dark, Maroon
The Jojo Set	Burgundy, Cream White, Olive Green, Red
The Serene Set	Black, Dark, Sky Blue
The Zahra Set	Black, Dusty Brown, Rose Wood, White
The Element Jacket	Sky Blue. There is also a navy photo, but navy isn't on sale. Should it be?
The Grind Set	Dark Gray, Olive Green. There is also a navy photo, but navy isn't on sale. Should it be?
Off Duty Set	White Cream
The Adventurer Set	Black, Lavender
The Heavenly Dress	Amaranth Pink, Black

Accessories: the headband and visor photos are linked to their colours. For the socks and the face cap, the photo names didn't say which colour each one is. If you tell us which photo is which colour, we can link them.

How to send sizes and stock

A simple list per product is enough, in a message, a spreadsheet or a photo of a handwritten note. For example:

Product	Colour	Size	How many in stock
The Ease Set	*Black*	*S*	*4*
The Ease Set	*Black*	*M*	*6*
The Ease Set	*Olive Green*	*S*	*2*

These numbers are only an example. Accessories with one size (like the cap or the socks) only need the colour and how many.

What happens next

- Send the answers when you can. Only the sizes hold up the launch; everything else can be changed later in the website's admin area.
- Before announcing the site, we'll place a few small real orders to check payments, delivery and emails, then refund them.
